The Italian corvette Vittor Pisani, commanded by H.R.H. the Duke of Genoa, left Nagaeaki for Shanghai an the 23rd. She is expected to remain here at least a month. No sooner was the Thomas Derby, a ficemen on the British announcement made that H.R.H. the Dake of marked earnestness that characterised the community during the visits of others of either high rank or distinguished ability. A doubt has existed, we believe, as to whether the Duke would visit Shanghai at all, and the news of his having left Nagasaki, bound for the Model Settlement was none the less welcome because it was somewhat unexpected. The arrangements that have been made therefore were devised on the spur o the moment. One of the principal features o his visit will be a public ball in his honour at the Shanghai Club.

A Naval Court assembled on the 23rd instan at the British Consulate, to inquire into the circumstances attending the loss by stranding of the British brig Hieronimus; official number 64,126, of Shanghai, and the conduct of the officers and crew on that occasion. The court consisted of Clement Mr. F. R. Allen, H.M.'s Vice-Consul at Shanghai; President, Lieutenant, Arthur W. Torlesso, of H.M.S. Lily, and Cap. tain Robert John Brown, of the O. S. S. Co. steamer Deucalion. Mr. Richard Road, Assistant-Paymaster in-charge of H.M.S. Lily, acted as clerk of the court. The following judgment was given :- (1.) - We find that the British brig Vieronimus, official number 64,126, started on a voyage from Kobe, Japan, to Shanghai on the 21st-of February, 1880. (2,)-That the Hiero. nimus was an old and leaky vessel; but that nevertheless she safely accomplished her toyage se far as the mouth of the River Yang teze, which she reached on the morning of the 28th (3.) That the Hieronianus tacked up the river Yangtaze; and that when on the starboard taok, about 10.30 a.m., having gone about twice, she got on shore on the south end of Blockbouse Shoal. (4.) That every effort was made by the captain and officers of the ship to save life and property. We find that Nann Peter Mungard was to blame for going so far up the River Yangtone on a beating wind without waiting for a pilot as he had never before navigated a vessel up to Shanghai. We also consider that he is to blame for not keeping the lead going the whole time that he was in the river, and we consure him accordingly. (5.) We return Nann Peter Mungard his certificate of competency, but we order him

terized Chinese publications. To illustrate the wast scope of the work, the following facts are submitted for consideration: Chalmers' Vocabulary contains about 16,000 Chinese characters, and Medhurst's English and Chinese Dictionary about 100,000, whilst this work contains more than 50,000 English words, and upwards of 600,000 Chinese obaracters. Again, despite all the grammars and other elementary works as yet published, the student of this difficult language absolutely requires examples to display the various applications and equivalents of different words which have one general meaning.
